

Stepparent Adoption Process

Contact an adoption competent attorney to initiate the adoption process.

Once Holt receives your application, Holt will set up a welcome call to review the stepparent paperwork and process.

A report to the court is completed by a Holt social worker including Holt's recommendation.

Your attorney will then begin the process to terminate the parental rights of the birth parent.

Contact a licensed adoption agency to begin the stepparent assessment.

Home study process: includes clearances, references, supporting documents, interviews with all household members and a home visit.

Holt submits completed report to your attorney.

Once adoption is finalized, forward copies of finalization paperwork to Holt office to complete your file.
